

# The Church of the Visitation of the Virgin Mary, Obyčtov

Od spravce

Vytvořeno 08/05/2012 - 10:52

## Popis

The floor plan of the church in Obyčtov is likened to the shape of a turtle. The church was built on the site of an earlier structure in 1730 on a commission by Václav Vejmluv, the abbot of the Žďár monastery, according to a design by Jan Blažej Santini.
